Where can I find the Chint power systems user manual?

The manual will be periodically updated or revised due to the product development or improvement. The latest version of this manual can be acquired via the website at [1. IMPORTANT SAFETY INSTRUCTIONS \(SAVE THESE INSTRUCTIONS\)](#) Please read this user manual carefully before installation of the inverter.

What is a photovoltaic (PV) inverter user manual?

This user manual is intended for photovoltaic (PV) inverter operating personnel and qualified electrical technicians. This user manual is subject to change (specific please in kind prevail) without prior notice. Indicates an imminently hazardous situation which, if not correctly followed, will result in serious injury or death.

What is a PV string inverter?

To avoid any other unforeseeable risk, contact your dealer immediately, if there is any issue found during operation. 2.1.1 Function This series is a single-phase grid-tied PV string inverter (transformer less) that converts the DC power generated by PV strings into AC power and feeds the power into power grid. The inverter is transformerless.

How do I install a PV inverter?

Ensure there is no electronical connections around ports of the PV inverter before installing; Adequate ventilation must be provided for inverter installation location. Mount the inverter in vertical direction, and ensure that no object is put on the heat sink affecting the cooling. (For details, refer to Chapter 4 Installation)

How to connect a PV module to a DC inverter?

PV modules generate electric energy when exposed to sunlight and can create an electrical shock hazard. Therefore, when connecting the PV modules, shield them with opaque cloth. Before connecting DC input power cables, ensure that the voltage on the DC side is within the safe range and that the DC SWITCH on the inverter is OFF.

Can a PV inverter touch other parts?

Do not touch any other parts' surface except the DC switch when the PV inverter is operating; its partial parts will be extremely hot and can cause burns. Power OFF all electrical terminals before the inverter maintenance; strictly comply with the safety precautions in this document when operating the inverter.

2.1 Inverter for grid-tied PV systems CPS SCA36KTL-DO/US inverter is suitable for use with commercial and large scale PV grid-tied systems. The system is generally made up of PV ...
